

FROM ENTRANCE DOOR TO PATIO DOOR

2014-2015

**Novatech**®

# SHOWROOM

1401, Nobel Street, Sainte-Julie, Quebec J3E 1Z4

1-866-289-6106 ext. 4228

“The entry system is a place of passage, an invitation into our home. Welcoming, inviting and warm, this threshold also directs us outdoors. We want it to be protective, reassuring, distinctive, a meeting place. Be inspired by our fabulous collection of doorglass and doors, which have kept our entire team passionate over the decades.”

A handwritten signature in blue ink, consisting of a large, stylized 'H' followed by a series of loops and a final vertical stroke.

**Harold Savard**

President and General Manager,  
Novatech Group

# ELEVATION

Venting unit requiring minimum force

82

*Low E+Argon*

## ERGONOMIC

A. Aided by a weight balancing system, a light upward movement is sufficient to open the vent.

## SAFE

B. The two grips make opening and closing the vent easy (50/50).

## CONVENIENT

C. The central lockset creates a better seal.

**NOVATECH, ALWAYS AT THE FOREFRONT OF PROGRESS**

Elevation is a unique venting unit with a weight balancing system. This ergonomic doorglass opens and closes easily as a result of this balancing system, which allows for better control and safer operation.

# CUSTOM GLASS

88

Novatech offers a wide variety of products that can be modified to meet your needs and preferences in its families of stained glass, V-groove glass, grill, clear or textured glass. It is common to see small bubbles in textured glass. These little bubbles are inherent to the production methods for making pattern glass and do not reduce the quality of the glass. These tiny bubbles give the glass a natural, authentic look and a unique character. The natural look of the bubbles is part of the product's own aesthetic appeal. In fact, the bubbles are referred to as seeds by artisans in the glass industry.

## Step 1: Select the model

Custom glass available for the model.

Suggested glass to accompany the model.

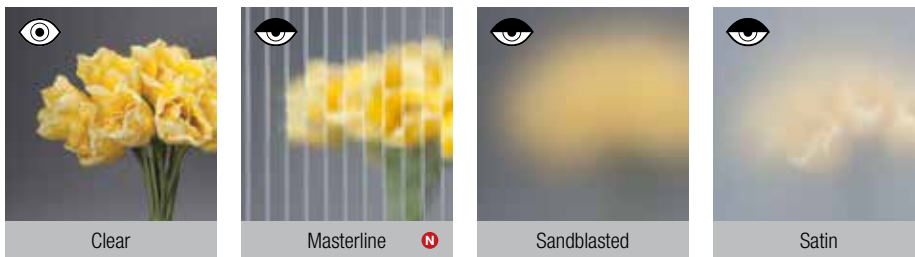

No custom sizes available.

## Step 2: Decide on the opening for decoration: doorglass, transom, garage doorglass, sidelite, decorative window

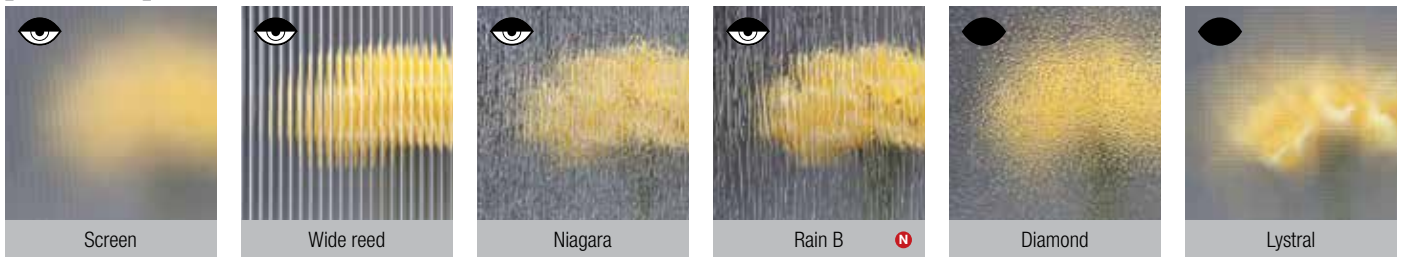

## Step 3: Select the glass based on your architectural style.

### [CONTEMPORARY]

- = Clear
