Craftsman Style, with the look of Douglas Fir graining, is inspired by the American Craftsman movement of the early 1900s. The clean vertical lines, solid wood edges, architecturally correct stiles and rails, and recessed panels harken back to the era of simple artistry and purity of design. Choose one of four complementary glass designs. Also available: A 4-block dentil shelf to create a timeless look perfect for Craftsman-inspired cottage- and bungalow-style homes.
